

APPOINTMENT REMINDERS

We have added both a text messaging and email reminder system to help confirm your appointments.

You will receive an appointment reminder text or voice message four weeks before your appointment. You will also receive a confirmation text or voice message 72 hours before your appointment. Please respond to the messages with the word YES, which updates our system automatically.

Our hope is that this will be beneficial by keeping you updated on your appointment and reducing the number of confirmation calls made from our office. This system also allows you to text our main office number for any changes you need to your appointment.

If you want to discontinue the text messages or voice calls from this system, please text back with the word STOP.

Thank you,

Open and Affordable
Dental and Braces®
